

In Colorado, Medicaid is called Health First Colorado. Every Health First Colorado member belongs to a regional organization that manages their physical and behavioral health care. Northeast Health Partners is a regional organization and supports a network of providers to make sure members can access care in a coordinated way.

Northeast Health Partners would like to encourage you to join our Program Improvement Advisory Committee (PIAC). This group is for members, family members, providers, county employees, and other stakeholders. The purposes of the group are:

- To improve the health of Members in our region
- Find out if Members are happy with their health plan
- Make sure Members can access services
- Develop programs to improve health outcomes
- Discuss the quality of care and service
- Learn about how we are performing by looking at Key Performance Indicators (KPIs) and Behavioral Health Measures

*COME JOIN US FOR OUR NEXT MEETING!*
